

CPA Support Courses

Our CPA Support Courses assist students undertaking the CPA program. Kaplan Business School offers weekly seminars commencing in early March and concluding prior to the CPA exams to further enhance the knowledge of students studying for their CPA accreditation. Our experienced staff guide students through the course and provide assistance to those requiring support to complete the program successfully. Kaplan Business School's academic staff have many years' experience in preparing candidates for success in the CPA program.

Our program was developed by Academic Director Mary Dale, who was both the Senior Lecturer and the Program Director for Macquarie University's large Master of Accounting program for 16 years. Mary brings a wealth of experience to our program having established and managed the Master of Accounting (CPA Extension) program at Macquarie.

Seminars are held at our Sydney campus, 517 Elizabeth Street Surry Hills in the evenings and on the weekend.
