
Recognition of Prior Learning (RPL) Policy

Scope

This policy is applicable to Kaplan Business School Pty Ltd, (KBS) and applies to individuals enrolled in KBS courses.

Purpose

Recognition of Prior Learning (RPL) interchangeably referred to as Advanced Standing or subject exemption is defined in the AQF as an assessment process that involves assessment of an individual's relevant prior learning to determine entry and credit outcomes.

All students who possess prior learning may submit evidence of such and apply for recognition. KBS may award exemption towards the achievement of an award for various forms of prior learning.

The purpose of this Policy is to provide a:

- process and framework for the provision of recognition services for KBS award courses
- service which is consistent with the Australian Qualifications Framework and the AQF Qualifications Pathways Policy
- fair and equitable means of recognising an individual's education, skills and experience
- process to ensure academic integrity and standards are safeguarded.

Methods of achieving recognition

Automatic Exemptions

Students may be eligible for an Automatic Exemption based on previous studies with an approved education provider. The Academic Board or its delegate will approve automatic exemptions. Where automatic exemptions are available, a list is provided on the relevant KBS website.

Advanced standing

Students who have completed related studies from an accredited higher education provider that are not on the automatic exemption or precedent list may apply for RPL. Students must submit the [relevant form](#) available from the [website](#) along with the relevant subject outline (i.e. syllabi, objectives, assessment details etc), verified copies of certificates or transcripts and other documentation to show equivalencies to the requested subject outcomes. Equivalence is generally deemed to be a minimum subject content coverage match of 80%. Students are required to have achieved a pass grade to be considered for exemption. KBS does not guarantee the transferability of exemptions from other educational institutions.

Conditional RPL

In some cases, students who have applied to study with KBS may be granted conditional RPL based on the following circumstances:

1. If the student is enrolled or has commenced studying another program at another provider and cannot provide an official transcript yet
2. The student has a packaged enrolment (i.e. studying a Diploma and progressing in to a Bachelors)

3. The student has only provided unofficial transcripts and will provide official transcripts (or certified) upon arrival in Australia
4. The student needs to provide unit outlines and will provide these upon arrival in Australia.

Other methods

KBS may, recognise the validity of various forms of training outside of Australia into its courses, providing they meet the AQF standards. KBS may also provide additional methods to assess a student's knowledge of a given subject. This may include challenge exams and assessment options. Not all subjects or courses offer recognition options, if in doubt students should contact their campus for further information.

RPL Standards

Australian Qualifications Framework (AQF) level

Completed studies must be at a comparable AQF level to the subject for which students are seeking an exemption. Where the completed study is at a lower AQF level to that in which the exemption is sought, it must be supported by evidence showing that the applicant operates at the higher-level e.g. extensive work experience at the higher level, verified CV, job description, etc.

Block credit

Block credit may be granted for the successful completion of an accredited award program or components of an accredited program, where the program contains material that is considered equivalent to a course at KBS or where KBS has been directly involved in the design and development of the program and the program articulates into a specific KBS course.

Currency and relevance of knowledge

Courses must be relevant and equivalent to the degree in which the student is enrolled and must generally have been completed within ten (10) years of the application, except in the case of subjects on the Automatic Exemption List. Study completed more than ten (10) years prior to admission to Kaplan will be evaluated on a case-by-case basis and may include a review of the applicants relevant work history.

Exemption for an exemption

Previous study graded as an exemption cannot be used for an exemption into a KBS qualification.

Maximum exemptions

Students may obtain exemptions for up to 50% of subjects in a specified course.

In limited circumstances, the Academic Board may approve over 50% credit towards a KBS qualification. Circumstances in which Academic Board may approve credit over 50% of a qualification are outlined below:

- Credit transfer between Kaplan's Higher Education Providers in similar disciplines
- In the case of transitional arrangements due to a merger or acquisition, or
- Where KBS is teaching out students from another provider under the terms of an agreement. In this instance, block credit to all eligible incoming student (without individual assessments) will be supplied where there is an institution to institution agreement, or
- Where another provider closes or stops delivering a course of study and KBS agrees to teach those students to completion. In such an instance, the Academic Board grants discretionary authority to the Academic Dean to exceed the limits stated here for those students only and in line with the terms

agreed by the Academic Board from time to time. The decision of the Academic Dean will be reported to the Academic Board at the next meeting.

Note: In some instances, course rules may prohibit the awarding of specified credit against particular subjects due to content or delivery deemed unique to KBS. For instance, only a maximum of 30% can be exempted into any postgraduate course based on undergraduate study.

Cross-institutional study

Students who are enrolled in a KBS course and wish to study an equivalent subject at another recognised institution should speak to their student services representative. KBS' maximum exemptions apply.

Recognised institution

At KBS, prior learning may be from:

- a recognised higher education provider
- a TAFE or other recognized Vocational Education Training (VET) provider
- a professional body, enterprise, private educational institution, or other similar body
- work experience or other forms of practical experience, including voluntary work, however, a challenge exam may be required in some cases.

Transcripts

KBS staff must sight original or certified copies of transcripts in order for RPL to be approved.

Work experience

In some cases applicants may be required to demonstrate that they have current knowledge of the subject area, e.g. through employment history or continuing professional development. Students must demonstrate that they have recent industry experience e.g. within the last 3-5 years or since completion of their study.

Overseas student exemptions

If an overseas student is granted exemption into a course, which leads to a shortening of the student's course, **before** the student's visa is granted KBS will indicate the actual net course duration (as reduced by course credit) in the confirmation of enrolment issued to that student for that course. Alternatively, if an overseas student is granted exemption into a course, which leads to a shortening of the student's course, **after** the student's visa is granted KBS will report the change of course duration via PRISMS in accordance with section 19 of the Education Services of Overseas Students (ESOS) Act 2000.

Assessment of Application

KBS will review the application once the student has submitted all relevant documentation. Students will be advised of the outcome of their application within 10 working days of the application being received.

Recording of exemptions

Exemptions will be recorded on the student's KBS transcript as 'Exempt' once approved. Exempted subject grades and grade points are not transferable or calculable as part of the cumulative grade point average at KBS.

Appealing the outcome

Applicants who are denied credit should refer to the Complaints and Appeals Policy for further information.

Transfer of Credit between Kaplan Institutions

Credit for subjects completed towards a qualification at one Kaplan's institutions may be transferred to another Kaplan institution upon acceptance into that institution. Credit award may be based on:

1. Course descriptions, objectives, or outcomes being assessed as equivalent
2. Applicability of any core/major subjects to the course
3. Conversions from quarter to semester/trimester and credit point systems, or vice versa.

Students transferring between Kaplan campuses must fulfil their financial obligations at any previously attended locations prior to enrolment.

Related policies

This policy should be read in conjunction with the following KBS policies:

- Complaints and Appeals Policy
- Assessment Policy
- Progression Policy

Version Control and accountable officers

It is the joint responsibility of the Implementation Officer and Responsible Officer to ensure compliance with this policy.
